Potential competing interests: No potential competing interests to declare.

1. Some typos, e.g., extra bracket "abstract It relied on secondary-time series data on rice output, yield, and cultivated area):
2. Some wording problem, e.g., in abstract: "The descriptive statistics" the is not necessary
3. Many important statements lack references, especially in introduction section.
4. Still not clear about what is the novelty of the work. If such analysis is to fill a specific research gap? Section 2 has a literature review, but what is the link with this article is not specified?
5. Section 2.3 has only one subsection while there is a big text before that only subsection.
6. unclear about finding. in abstract mention "the highest yield performance" is unclear, is it average ?
