Octahedral 21 Molecular Geometry

National Cancer Institute

Source

National Cancer Institute. *Octahedral 21 Molecular Geometry*. NCI Thesaurus. Code C103218.

Octahedral molecular geometry where the Cahn-Ingold-Prelog (CIP) priority of the lowest priority donor atom directly across from (trans to) a priority 1 donor atom is 2 and the priority of the donor atom across from (trans to) the highest priority atom in the plane perpendicular to this reference axis is 1.
