Dear Editor,

Thank you for choosing me to review this article. In my opinion, applying the following corrections can be useful in improving the quality of the article:

1. Please write the species name in italics in the title of the article.
2. It is not necessary to put the figure number inside the figure itself; it is enough to put it in the caption.
3. If you could add geographic coordinates for Figure 1, it would improve the figure.
4. The quality of Figure 2 is low; please replace it with a better figure if possible.
5. Some grammatical corrections are recommended (It is specified in the PDF file).

Kind regards,

Rahman Mohammadi
