Potential competing interests: No potential competing interests to declare.

So Important topic.

About the text, some suggestions:

Introduction: present the problem using current references.

Method: I suggest following Coreq's protocol.

Results: theme 3 and 4 could compose a single category, since lack of knowledge can be a barrier.

Discussion: what are the practical implications/contributions for nursing?

It's necessary to improve 'cause the topic is very important for nursing.

best,
