

Review of: "Assessment of Quality of drinking waterbased on the water quality index method in Hawassa Zuria Woreda, Sidama Regional State, Ethiopia"

Darshan Mehta

Potential competing interests: No potential competing interests to declare.

1. What is the limitation in your study?
2. How the samples were collected?
3. Why only water quality index method is considered for study?
4. Wht author have selected Hawassa Zuria Woreda Sidama regional state ethopia for study purpose? (Justify as need of the study)
5. How many parameters considered for analysis purpose?
6. Have you validate your model?
7. Compare your work with other researchers
8. Add below mentioned references and cite them in the text:-
