## Title and Abstract:

1. Please indicate your study design.
2. Please use the IMRaD model for reporting abstract.
3. Please use statistics and numbers to make the result part more strong.

## Introduction:

1. Introduction could be more concise and more focused on the rationale of the study to explaining facts and concepts.

## Literature Review:

1. I think it's better to write an objective at the end of this part and not the hypothesis which is more suite for thesis.

## Methodology:

1. Please add parts for study design, setting, participants, variables and bias.

## Discussion:

1. Please add limitations and generalizability.
