Dear Authors,

I have thoroughly reviewed your manuscript titled "Fintech Revolution: Empowering Entrepreneurial Intentions through Crowdfunding, Cryptocurrency, Blockchain, Mobile Payments, and Artificial Intelligence". Overall, I find the study to be informative and insightful. However, I have a few suggestions for improvement:

Abstract: Please avoid repeating the term "Financial Technology (Fintech)" throughout the abstract and subsequent sections. Instead, you can use "Fintech" for brevity and clarity.

Conceptual Framework Figure: It would greatly benefit the readers if you could include hypothesis numbers in the framework. This will make it easier for them to understand the relationships and connections between the variables.

Table 4: I noticed that Table 4 appears to be incomplete and may contain inaccuracies. I recommend revising and ensuring its completeness and correctness.

These suggestions will enhance the overall quality and readability of your manuscript. Thank you for considering these revisions. I look forward to reviewing the updated version.

Best regards,

Nazir Ullah, PhD
