

Review of: "Creating Happy Educational Environment in Engineering Institutions to Sustain Outstanding Performance by Well-Accomplished Faculty Teams Through “Rodeorr” Model"

P. Saeidi

Potential competing interests: No potential competing interests to declare.

1. The abstract lacks clarity regarding the research location and the employed analysis method.
2. Provide a thorough explanation in the introduction regarding the significance of conducting this research.
3. Clearly articulate the scientific distinctions between your article and others, and elucidate the specific research gap you aim to address.
4. Scrutinize the methodology section to ascertain whether it adopts a quantitative or qualitative approach.
5. The writing style of the article resembles that of a thesis rather than conforming to the standards of an academic article.
