Review of The Condition of Cigarettes and Other Tobacco Products Act: Case Example of IP Estate area

Strengths

- Topic is relevant
- Supports the struggle to prevent tobacco addiction and the subsequent health impact of tobacco.
- Supports the implementation for the tobacco products act.
- Promote evidence based practice

Feed backs

- No references for the last section of the literature review
- Does the researcher take consent of the individuals whose picture is shared in public? This is not mentioned in the method section and is not ethically sound. It is also good to avoid identifiers of all the pictures since not ethical. However, the regulatory bodies can further make identification and further implementation plans.
- The special concern is the ethical issues.
