

Review of: "Acceptance of COVID-19 vaccination at different hypothetical efficacy and safety levels in Nigeria."

David Bamidele Olawade

Potential competing interests: The author(s) declared that no potential competing interests exist.

The paper is concise with sound statistical data but can be improved. The discussion section is underreported as a number of findings from the result section were not mentioned and justified in the discussion section. Although the sample size was small but some inferences can be made from findings from the paper.
