Potential competing interests: No potential competing interests to declare.

The authors proposed "Web-Based Crime Management System for Samara City Main Police Station," which contains some novelty and new ideas but requires serious attention from the authors.

** The abstract needs to be rewritten to contain a summary of the introduction, problem statement, proposed methods for the solution, and the results obtained.

** More background information is required in section 1.

** No significant contributions of the authors' work to knowledge are presented or highlighted, nor is the organization of research. Authors should kindly provide this information and present it in the last paragraph of section 1.

** Authors should format the manuscript by following the standard format.

** No related work is presented. Authors should kindly review some recent and related articles and present the summary in a meta-analysis table to show the research trends and gaps.

** Figures 1 - 7 should be discussed appropriately.

** All the figures presented should be adequately discussed.

** How did you evaluate the performance of the developed system? Show the proof.

** The list of references is too small; please kindly revisit and review more recent related articles between 2018 and 2023.

At least 15 references should be provided.
