1. Abstract needs to be strengthened.
2. It is better to remove very old citations like Conning, 1999, Robinson, 2002, Woldeyes, 2012. We are now in 2024; thus, incorporate the latest references only. The authors may incorporate good papers, viz., Doi-10.1109/InC457730.2023.10263140, 10.1109/ETI4.051663.2021.9619424
3. Research questions and research gap should be incorporated.
4. Analysis and discussion are good.
5. Limitations and future scope should be incorporated.
