# Myelodysplastic/Myeloproliferative Neoplasm, Unclassifiable

National Cancer Institute

## Source

National Cancer Institute. *Myelodysplastic/Myeloproliferative Neoplasm, Unclassifiable*.  
NCI Thesaurus. Code C27780.

This entity includes cases that have clinical, laboratory, and morphologic features that support the diagnosis of both a myelodysplastic syndrome and a myeloproliferative neoplasm, but do not meet the criteria for any of the other entities included in the myelodysplastic/myeloproliferative neoplasm category. (WHO, 2001)
