First of all, I would like to thank you for considering me suitable for the role of review. I have thoroughly reviewed the article from beginning to end. My views on the article is as follows:

## **For the Editor & Authors:**

### *Title*

The title of the article seems appropriate.

### *Keywords*

The keywords of the article are considered appropriate.

### *Abstract*

-In the abstract, tell us about your sample group.

-Talk about your method.

### *Introduction*

-Avoid giving numerical data in this section.

-Add transition sentences between paragraphs.

### *Method*

-Use academic language when writing headlines. For example: Method, Data collection tools, analysis of data...

### *Findings-Results*

-Comments before or after tables and figures should be strengthened.

### *Discussion and Conclusion*

- Make suggestions about your results.
- Give the reasons for your results.
- Talk about your limitations.

#### *References.*

Technical deficiencies in this section need to be corrected.
