

Review of: "Startup Development: SewaDia Rent Application"

Bagus Shandy Narmaditya¹

¹ Universitas Negeri Malang

Potential competing interests: No potential competing interests to declare.

The authors have successfully propose a good idea of sharing economy. However, it seems like “a review an innovative product” instead of an academic paper. The style is slightly different with academic paper in general. Thus, it can be enhanced to be a more academic by providing contribution of research and novelty. In addition, method should be provided in detail to address the research purpose.
