# Cold Spring Harbor Laboratory Cancer Center

National Cancer Institute

## Source

National Cancer Institute. *Cold Spring Harbor Laboratory Cancer Center*. NCI Thesaurus. Code C39335.

The Cold Spring Harbor Laboratory Cancer Center is a basic research facility devoted to the understanding of the fundamental biology of human cancer. It is committed to exploring the molecular basis of human cancer through a focused, multidisciplinary approach to improve the diagnosis and treatment of all major forms of the disease. The center became an NCI-designated cancer center in 1987.
