# Vulvar Papillary Hidradenoma

National Cancer Institute

## Source

National Cancer Institute. *Vulvar Papillary Hidradenoma*. NCI Thesaurus. Code C128240.

A benign glandular neoplasm that arises from the vulva. It presents as a mass or cystic lesion in or adjacent to the interlabial sulcus. It is characterized by the presence of complex branching papillae with fibrovascular stalks, lined by uniform columnar epithelial secretory cells and myoepithelial cells.
