# Capillary Leak Syndrome, CTCAE

National Cancer Institute

## Source

National Cancer Institute. *Capillary Leak Syndrome, CTCAE*. NCI Thesaurus. Code C143349.

A disorder characterized by leakage of intravascular fluids into the extravascular space. This syndrome is observed in patients who demonstrate a state of generalized leaky capillaries following shock syndromes, low-flow states, ischemia-reperfusion injuries, toxemias, medications, or poisoning. It can lead to generalized edema and multiple organ failure.
