

Review of: "Skin related health issues among health care workers due to utilizing of personal protective equipment during COVID-19 pandemic in Pakistan"

Ashish Sarangi

Potential competing interests: The author(s) declared that no potential competing interests exist.

This article offers an interesting perspective from a healthcare standpoint during the COVID-19 pandemic. The authors however need to emphasize the impact of COVID-19 prior to jumping to the specifics of skin related issues. Please cite the following articles in your manuscript and use them to expand the introduction and discussion sections briefly. Kindly discuss the psychiatric effects of COVID-19 in general and dysmorphia related impact of teleconferencing during the pandemic.
