

Review of: "The Political Ecologies of the Tonle Sap: Global, Regional and National Framework for Conservation and Development"

Chinmay Dash

Potential competing interests: No potential competing interests to declare.

I will recommend publication of the article with modifications to the introduction and abstract section. Most of the previous reviewers have raised issues on the introduction, which needs a careful presentation of the objective of the research paper. Please reorganize the paragraphs in the introduction section. Please follow comments on the introduction section by the reviewers.
