Review of: "Machine Learning Methods in Algorithmic Trading: An Experimental Evaluation of Supervised Learning Techniques for Stock Price"

Abhishek Sharma[1]

1 PDPM Indian Institute of Information Technology, Design and Manufacturing Jabalpur

1. Literature review should be more thorough.

2. Authors should highlight their contribution in the introduction, currently the innovations proposed by the authors is unclear.

3. Some mathematical analysis should be provided by the authors.

4. Overall the paper needs significant improvement in terms of writing, analysis, and presentation
