Dear Author,

Your article concepts and method of describing the ICT Resources which is used in the Organization was very excellent. Some of the points needs to clarify which as listed as below:

1. You explained the installation procedure under the subsection of Installation and customization of software resources. In this section, kindly list out what type of software they are used while installation time.

2. In this "Tools and Techniques for Monitoring ICT Resources" section, kindly table the contents like what kind of tool and techniques which is used for monitoring the ICT resources.

3. Kindly provide some more explanation of the Importance of Proper Disposal of ICT Resources.

Overall comments, kindly check the grammatical error once. And also, use the bullets and numbering the titles and sub-titles where you want to require.
