In general, the article is interesting and well-constructed; however, it could be enhanced through the following recommendations:

- 1) The keywords, with the exception of "Instruction" and "Curriculum," do not appear in the UNESCO Thesaurus.
- 2) It would be beneficial to expand the theoretical framework by incorporating references from Merrill, Drake, Lacy, and Pratt. Additionally, consider referencing Merrill & Reigeluth, editors of the book "Instructional-Design Theories and Models: A New Paradigm of Instructional Theory."
- 3) It is advisable to include a graphical representation of the results to enhance clarity and visualization.
- 4) Strengthen the discussion by integrating the new references provided along with all available data
