Potential competing interests: No potential competing interests to declare.

Suggestions:

- 1) Broaden the range of papers to find more insights from different regions in Nigeria.
- 2) Also vary the authors to avoid having closed views on the subjects.
- 3) Improve a little more, as you did with the methodology, the division of subjects covered.
- 4) Include a comparative analysis, if possible, by Nigeria regions, in order to increase the social reach of the work.
