Potential competing interests: No potential competing interests to declare.

I appreciate your efforts to pin up the healthy and sound knowledge for scholars. According to assignment, I offer my input on this material.

1. The abstract is too long. It does not clear the direction of whole material. It should be precise and comprehensive summary to attract the readers.
2. Research Objectives are not clear.
3. Research Gap is not mentioned clearly.
4. Paragraph structure is need to revise as there is inconsistency in discussion.
5. References are incomplete.
6. It is a good peace of knowledge but some points are highlighted without references. In an interview with the Economic Times, Governor Nikolay Lyubimov mentioned that they have embarked on a world tour, starting with India, as they are keen to increase trade with selected countries..... reference?India also agreed to invest up to \$US635 million to develop the Iranian deep-sea port of Chabahar on the Gulf of Oman, which is located only 300 kilometers from Gwadar port in Pakistan, the hub for the CPEC project..... reference?At the Chinese-Russian BCPs Suifenhe, Hunchun, and Manzhouli, the increasing cargo from the baseline scenario varies from 255 to 1152 thousand TEU..... reference?
7. Standardized reference style should be adopted. Normally, APA or Chicago Manual style is used but I could not understand the used referenced style.
8. Policy recommendations are need to clear.

I recommend the aforementioned point to address accordingly.
