

Review of: "SARS-CoV-2 Virion: A Humane Debacle - An Analytical Approach"

Salma Shahpur

Potential competing interests: No potential competing interests to declare.

Rewrite the introduction by including recent and key papers their limitations and how this work is intended to overcome those shortcomings.

Similarly, under the results and discussion section, the author should compare their results/ match their contribution with that of recent developments.

The study does not attempt a novel topic. This aspect is already present. The major question to be asked regarding the article is its novelty and the key contributions
