

Review of: "A Review of Transformation and Digital Literacy for the Sustainable Development in the Greater Mekong Subregion – Working Paper"

Ralf Aschemann

Potential competing interests: No potential competing interests to declare.

Interesting article, but its title promises more than the author is delivering: The Greater Mekong Subregion is dealt with only to a limited degree, whereas digital literacy is explored much more. Thus, I recommend to tailor-made digital literacy principles and means to the region mentioned in your title. Moreover, don't overlook the threats of the "digital divide".
