English Pointer

National Cancer Institute

Source

National Cancer Institute. *English Pointer*. NCI Thesaurus. Code C53893.

The Pointer, also known as the English Pointer, has a well-muscled, athletic body and a short, sleek coat that comes in primarily white, but may be liver, lemon, black or orange; solid, patched or speckled. The medium-sized ears are pendant and somewhat pointed. Height: 21-24 inches (54-62 cm.) Weight: 44-66 pounds (20-30 kg.)
