Please prepare your updated paper by following the instruction:

1. (Manuscript and figures) A suitably revised manuscript with high quality figures
2. Explain proposed methodology in detail (ANFIS, EKF).
3. The article does not include the presentation of experimental results, (or change the title by simulation and results)
4. Discuss the results in details and compare in state of the art, preferably in tabular format.
5. The paper has a few typographical and grammatical errors, please recheck carefully.
