

# Review of: "A Study of the Urban Nightlife of Delhi and its Impact on Safety"

Deep Shikha

Potential competing interests: No potential competing interests to declare.

this manuscript is very interesting and crucial topic for reading. the structure of the article is very well written.

however, more relevant and recent articles must be included.

elaborate the methodology section. more empirical studies must be included in each case study.

overall, this study is very good preliminary study and i recommend the author to explore this topic for further studies.
