Potential competing interests: No potential competing interests to declare.

The introduction should briefly place the study in a broad context and highlight why it is important. It should define the purpose of the work and its significance. So, the authors should highlight why this study is important.

How does policy recommendation by current study differs from published research? There is need to shed more light in this direction.

Conclusion section to my liking remains to be appealing. The revised version must be more focus oriented and illustrate the scientific values.

Please highlight what distinguishes this study from earlier ones in this field and what are its benefits and drawbacks?

The study must emphasize its source of inspiration. There should be a few recommended recent works included.
