The review comments are listed as follows.

1. The author might ask a professional English editor to revise the manuscript.
2. Some abbreviations should have their full text when they appear in the manuscript first.
3. The author should list the questions of the study questionnaire in the manuscript.
4. The author should have a narrative statistic of the 96 questionnaire respondents.
5. The author should have some explorations of the analysis methods used in the study in the literature review section.
6. The title format of columns in Table 1 and Table 2 should be consistent.
7. Examining Figure 2, no blue box can be found.
8. The author should some descriptions to explain the attributes in Figure 2, Tables 4~7.
9. The "figure 3" in the last line of page 3 should be "Figure 3".
10. The title of Table 3 should be arranged above Table 3.
11. It had better for the author to arrange a table title and a table in the same page.
12. When a figure spans two pages, the figure title should appear on all pages.
