Potential competing interests: No potential competing interests to declare.

1-What is the problem you've studied! The first sentence of an abstract should clearly introduce the topic of the paper so that readers can relate it to other work they are familiar with.

2-cannot see the results of the study. Add at least three sentences to state the results of the study.

3-how you tackled the research question? Methodology??

4-There is no call for recommendation in the abstract. Remove.

5-Readers need to know the implications of the study.

6-State the topic and related it to the issue you are tackling! In introduction.

7-Proved a context of your study. Where and when: time and place?

8-Is this your definition of outsourcing if not please add citation clearly

9-Readers wants to see your debate (voice) cornering the previous sentences and its relation to the goal of the current study. Be concise.

10-What are the types of outsourcing analysis. Readers wants to know why you have selected this particular method not other methods??? Please support with citation from famous figures who have writing extensively in the field of outsourcing!

11-Is this one of the main key concepts used in this current study. please add 5 keywords after the section of the abstract so that readers will be familiar with your debate and understand how you achieve the aim of the study.

12-Add references and connected with the aim of this study in a critical way!!

13- In the end the subject is very important and all notes i hope to support your paper in a good way.
