

Review of: "The Study of Consciousness Is Mired in Complexities and Difficulties: Can They Be Resolved?"

Giedre Valunaite Oleskeviciene¹

¹ Mykolo Romerio university

Potential competing interests: No potential competing interests to declare.

• Strengths

The article provides the necessary discussion on the paradigm of consciousness.

Well-organized conclusions.

Extensive references.

• Weaknesses

The aim of the article is defined, but the objectives are not identified.

The methodology of the research is not presented.

• Suggestions to Author/s

It would be clearer for the reader to see the objectives of the research.

The presented methodology of the study would help the reader understand how the references were chosen for processing to arrive at the article conclusions.

Recommendation to Editor

Acceptable, revisions required.
