Potential competing interests: No potential competing interests to declare.

First: It is a valuable topic.

Absrract/ Background: try to relate the last sentence with water consumption since it is your interest (e.g. specifically.... OR how much water is contributor to fluid consumption.....).

Introduction: it is mentioned that "water ..... without providing extra energy". So what?! It will give more meaning if you add a sentence committing on "extra energy" (e.g. what is wrong with providing extra energy? OR replace extra energy with a factor that affects rehydration....).

If you decide to add a factor that affects rehydration, this may give another extra topic to write about e.g. analysing the other beverages!

Good luck
