

Review of: "The symptomatic expression of infection with the Omicron variant in Chinese patients; findings from the Clifical COVID-19 clinical case registry"

MADHURANANDA Pahar¹

¹ University of Stellenbosch

Potential competing interests: The author(s) declared that no potential competing interests exist.

There are still some works to get done.

I would ask the authors to add Conclusion and explain the Statistical models in detail.

Also the list of references can be much longer, and the extra studies can be discussed in the Literature Review.
