Potential competing interests: No potential competing interests to declare.

The Review is well written and reports the intentions and the working process of the effort to do the review work.

Missing in the 'Outcomes' chapter are results of this review work. You only list the measurement tools in the reviewed papers.

The promise in the title of the paper 'Effectiveness of Telerehabilitation' still has to be reported in this review.

In editing this review, you could dispense with the 'Notes' chapter; it overlaps with 'Acknowledgements' and 'Conflicts of Interest'.
