

Review of: "A Policy Dialogue for Nutrition of Women and Adolescent Girls: Sustainable Development Goals Matters Arising"

Ayodeji Afolayan

Potential competing interests: No potential competing interests to declare.

This is a well written paper that clearly described the theme. The introduction though effectively written could use more figures and data to reinforce the keywords being addressed. Analysis of previous work could add colour and finesse to this good work. I however would love them to check the fine details of use of upper and lower case.
