The article "Culture Lockdown, Nature Freedom: Respite for Biodiversity during the COVID Pandemic – A Limited Case Study in La Union, Philippines" is well written but requires some significant changes before it can be accepted for publication.

1. Abstract should be more informative and must include some data.
2. Introduction section should be improved by adding recent and relevant citations.
3. The quality of the figures should be improved.
4. The methodology section should be elaborated
5. Discussions are missing. Relevant discussions should be added.
