**Potential competing interests:** No potential competing interests to declare.

A very interesting and novel topic.

Following questions need to be addressed before publication.

1. Why content analysis and IPA done at the same time.
2. APA/MLA need to be followed for in text citation.
3. Which style the author is followed for references citing at the end? Recheck References at the end. Not in proper APA format.
4. You have mentioned only IPA, but not content analysis as reported in abstract (7.2. Characterization of The Study)
5. All three objectives need to be mentioned with bullets or numbers.
6. Major IPA tables missing? (Emergent, Recurrent themes) etc
7. Significance of the study missing?
8. Theoretical and practical implications need to be cited.
9. Is there any page or word limit for the article, as this seems to be a very elaborative article. it must be concise.
