

# Review of: "Developing a Framework for Cost Reduction Strategies through Process Automation in SMEs: A United States Perspective"

Sanjay Mohapatra

Potential competing interests: No potential competing interests to declare.

The paper is an attempt to prepare a framework that can be used in the future in the domain. The approach is good; however, it can be improved if 1. the research questions are clear and written in simple English, 2. there is a proper alignment between research questions and methodology, 3. details on the research approach are given so that researchers can benefit in the future, and 4. it is discussed how this can have use cases in practical applications.
