

Review of: "A Study for Estimation of Greenhouse Gas Emissions of Cotton in Central Greece"

Zouhour Kehila

Potential competing interests: No potential competing interests to declare.

1. Please avoid the use of long sentences.
2. The revision of the literature related with cotton production must be increased in order to clarify the contribution.
3. Please clearly detail the calculating tool "Cool Farm".
4. Please make sure that table 5 has a correct title.
5. Discussion of results must be improved.
