

Review of: "Incidence risk of major reproductive disorders of dairy cows and cow-level risk factors in Wolaita Sodo town, southern Ethiopia"

Moustafa M. Zeitoun

Potential competing interests: No potential competing interests to declare.

This article highlighted the causes of reproductive inefficiencies in Southern Ethiopia. The study was based on collecting data from animal breeders on dairy cows raised on small farms.

The authors succeeded in revealing the idea, executing the questionnaires, and deeply discussing the results with a clear conclusion. There is only a lack of the sentence in line 3 of the abstract (Wolaita Sodo town between to estimate ????) that needs to be rewritten.
