Potential competing interests: No potential competing interests to declare.

This is a very good study about experiences of school leaders about remote teaching during Covid 19 pandemic.

Title: The term school leader is seems to be vague. Who are school leaders?

Abstract: Well written. Why 'Building resilience' capitalized?

Literature cited: I prefer 'literature review'

Methodology: Selection criteria of schools and their location can be described. 3rd para: This study is purely academic not 'academics'

Conclusion: 'Researchers and policymakers can develop effective policies and practices to support school leaders'...this portion has been repeated.

Thanks
