# Heat-Treated Varicella-Zoster Virus Vaccine V212

National Cancer Institute

## Source

National Cancer Institute. *Heat-Treated Varicella-Zoster Virus Vaccine V212*. NCI Thesaurus. Code C91085.

A heat-treated varicella-zoster virus (VZV) vaccine with potential immunomodulating activity. Upon vaccination with heat-treated varicella-zoster virus vaccine V212, this vaccine may activate the immune system to generate specific anti-VZV antibodies and an active immunity against VZV infection.
