Potential competing interests: No potential competing interests to declare.

Please add contribution with bullet mark in introduction (Please see and cite [1-3])

Please add lit. review table and add your research in end of table and show gap research (Please see and cite [1-3])

Please complete lit. review and table 1 (minimum 15 papers) and see papers that we suggested in below (Please see and cite [1-3])

Please add notation list and classify to sets (indices) , parameters, decision variables (Please see and cite [1-3])

Presentation is not well

Your presentation is needed to improve (Please see and cite [1-3]).

Please try to arrange article base on

1-Introduction
   Introduction
   Introduction with bullet mark

2-Literature review (survey on related work)
   Review and classify lit. review

Research Gap
   Table of review
   Step of your model (chart of step of manuscript)

3-Problem statement
   Problem statement
   Picture of problem statement (3d icon)

Assumptions
Notation List (sets (indices) , parameters, decision variables,)
mathematical model

Solution approach

4-Results
   Description
Assign value for parameters based on notation list
Computational Results
Comparing model
Sensitivity analysis 1
Sensitivity analysis 2
Discussion
5-Managerial insights and practical implications
6-Conclusions and outlook
   Conclusions
   Limitation
   Future research

Please add picture of your algorithm in section 3.
Please add Managerial insights and practical implications.
Please add results with bullet mark in conclusion (Please see and cite [1-3]).
Please suggest uncertainty form like fuzzy, robust optimization, data-driven and stochastic.
Please suggest risk form like CVaR, VaR.
Please add discussion and clarify comparison.
Please polish English language
