# Neuronal Ceroid Lipofuscinosis Type 4B

National Cancer Institute

## Source

National Cancer Institute. *Neuronal Ceroid Lipofuscinosis Type 4B*. NCI Thesaurus. Code C128116.

A condition associated with mutation(s) in the DNAJC5 gene, encoding dnaJ homolog subfamily C member 5. The condition is one of a group of genetically heterogeneous neurodegenerative disorders, characterized by accumulation of intracellular lipopigments.
