Potential competing interests: No potential competing interests to declare.

1. Add a subtitle: The relationship of temperature to crime.
2. The number of pages of the article is too many, and it needs to be reduced.
3. At the end of the part (climate and crime), the researcher should give a summary and a vision of the theoretical framework and benefit from it in the article.
4. Add a map showing the case study.
5. There are blank spaces in the article that need to be filled in, such as Figure 1 and Table 1.
6. Part (Validation of Findings), most of which are theoretical frameworks that are not related to the case study, need to be linked with the case study.
