

Review of: "Public Health Student Internship: An Opportunity to Explore System, Self, and Society"

Mandar Padmakar Baviskar

Potential competing interests: No potential competing interests to declare.

Such internships programs are run by some institutes and NGOs working in rural areas of India. The proposed Family Adoption Program by National Medical Council can also help address some of the concerns raised by the authors. It will not only make PH students more empathic towards the community but also change the perceptions of community towards healthcare providers. A good initiative by authors to highlight this much needed theme.
