

# Review of: "Improving agriculture and food security in Africa: Can the one health approach be the answer?"

Bhavani R V

Potential competing interests: No potential competing interests to declare.

The paper has a lot of content, but it is not well organised and presented. The methodology is not stated, although the abstract says review. Language editing is also required. The paper needs to be revised and presentation made more focused before it can be considered for publication. The recommendation is to reject it in the present form.
